

11 September 2020

Dear Parents and Carers,

Parklands school plans to begin to use the Seesaw Class App for easy communication between home and school and to enhance learning both in school and out. This App is available on Apple and Android devices and can be accessed through the internet on most computers and laptops. Please note, this is different than the Seesaw Family app which is limited to home/school journal functions. The Seesaw Class app allows you and your child to interact with posted work and respond with sounds, photos, videos, and comments.

If you'd like to learn more about the Seesaw Class App you can do so on the internet by at the following website: <https://web.seesaw.me>.

Enclosed with this letter are the privacy policy regarding Parklands' use of Seesaw for you to read over as well as instructions on how to set up Seesaw on your device.

If you have any questions or are having difficulty setting up Seesaw Family at home, please call the school at 01436 673714 and we can help you with this process.

Sincerely,

Parklands School
